Step One: Preparing Your Drum for Drum Slips™

Continue to the installation process.

Step Two: Installing Drum Slips™

Continue to Installation Finalization

Step Three: Finalizing the installation of Drum Slips™

- 12** Drum Slips are forgiving, slide the Drum Slip around until the hardware is centered.

- 13** If desired, reinstall tom guard. Drum Slips must be installed 100% correctly with no warping play in order to reinstall tom guard. *Do not attempt to install tom guard if Drum Slips warp when pinched.*

- 14** Reinstall drum head and drum rim and apply necessary tension.

Repeat steps as necessary for all drums.

Finished

Installation Complete
